GRE SCORESELECT REPORTING CHECKLIST

ETS ScoreSelect Rules, Test-Day vs Post-Test Options, Adcom Policy Matrix & Reporting Strategies

1. ETS ScoreSelect Mechanism: Options & Costs

Comprehensive breakdown of how ETS ScoreSelect functions on test day versus post-test score orders.

Reporting Timing	ScoreSelect Option Available	Cost per Recipient	Strategic Recommendation
Test Day (Immediately post-exam)	'Most Recent' OR 'All'	FREE (Included for 4 institutions)	Send only if you hit or exceeded target; otherwise skip free sends
Post-Test Day (Anytime within 5 years)	'Most Recent' OR 'All' OR 'Any'	$35 per university recipient	Recommended: Review official scores at home, then send only your peak score
Score Selection Granularity	Entire test date only (Quant + Verbal + AWA)	N/A	Crucial: You CANNOT mix Quant from Test 1 with Verbal from Test 2
Admissions Committee Visibility	Schools ONLY see the test dates you send	N/A	Adcoms have zero visibility into other attempts unless you choose 'All'

Key Rule: If you take the GRE 3 times, you can choose to send ONLY Attempt 2, hiding Attempts 1 and 3 entirely.

2. University Admissions Policy Matrix: How Adcoms Evaluate Scores

How different graduate and business school admissions committees interpret multiple GRE test scores.

Admissions Policy Type	Institutional Definition	Typical Universities Adopting Policy	Optimal ScoreSelect Action
Highest Single-Sitting Score	Evaluates highest composite score from a single test session	Harvard HBS, Stanford GSB, MIT EECS, UC Berkeley	Send only the test date with your highest balanced composite.
Superscoring (Self-Reported)	Considers highest Quant and highest Verbal across all attempts	Carnegie Mellon Heinz, Columbia SIPA, NYU Stern (partial)	Send the two test dates that contain your highest individual section scores.
All Scores Requested (Holistic)	Requires all scores within 5 years to view score trajectory	Select specialized academic PhD programs & Oxford/Cambridge	Select 'All' to ensure full transparency and avoid compliance issues.
Test-Optional / Waiver	GRE score is optional; strong score enhances profile	Many top-50 US MS and European MBA programs	Send only if your score is at or above the class median.

Always verify each department's explicit policy on their official admissions FAQ page before placing orders.

3. Step-by-Step Score Reporting Action Protocol

A four-step checklist to avoid costly reporting errors and meet tight university deadlines.

- Step 1: Check Institutional Score Codes. Verify the exact 4-digit ETS institution code and 4-digit department code before test day.
- Step 2: Decide on Test-Day Sends. If unofficial score on screen meets your program targets, utilize your 4 free recipients. If below target, leave blank.
- Step 3: Allow 10 to 15 Business Days for Delivery. Official scores take 8 to 10 days to generate and 3 to 5 days to transmit electronically to university portals.
- Step 4: Audit Application Self-Reporting Consistency. Ensure self-reported scores in your application portal match the official ETS score report exactly.
