3. The 4 Golden Rules of Beginner CAT Preparation

Fundamental mindsets shared by 99+ percentilers from IIT Roorkee and IIM alumni.

- Rule 1: Accuracy Over Attempts. Attempting 15 questions with 90% accuracy yields more marks than attempting 22 questions with 60% accuracy.
- Rule 2: Master the Art of Leaving. If a question cannot be formulated within 45 seconds, flag and move on immediately. Every minute wasted costs marks.
- Rule 3: Beware the DILR Sinkhole. Never spend more than 5 minutes exploring a DILR set without writing down concrete data representations.
- Rule 4: Review Your Mocks in Detail. Reviewing every mock question takes at least 3 hours. Redo every wrong and skipped question without a timer.
