CAT Para Summary & Odd Sentence Out Strategy Pack

Core Idea Extraction Protocols, Coherence Link Testing, Distractor Elimination & TITA Tactics

1. The 3-Step Para Summary Elimination Framework

How to distill 100-word paragraphs into precise summaries without losing crucial nuances.

Step Name	Analytical Action	Elimination Criteria
Step 1: Identify Key Argument Pillars	Underline the Subject, the Core Assertion, and the Final Implication	Any option missing 1 of the 3 pillars is INCOMPLETE (Eliminate)
Step 2: Check for Over-Generalization	Compare option scope against paragraph scope	Options expanding a narrow finding into a universal law are FLAWED
Step 3: Eliminate Distortion & Additions	Audit options for foreign facts or altered causal links	Options with unsupported modifiers or extraneous details are REJECTED

STRATEGIC PRINCIPLE: Summary Rule: The correct summary must be necessary and sufficient to encapsulate the core thesis.

2. The 4 Structural Linkages for Odd Sentence Out (TITA)

Identify the odd sentence by assembling the remaining 4 sentences into a coherent logical unit.

Linkage Mechanism	Coherence Indicators to Test	How it Identifies the Odd Sentence
Chronological / Sequential	Time markers: initially, subsequent, later, eventually	A sentence with disjointed temporal progression is the outlier
Pronoun & Noun Antecedents	Demonstrative pronouns: this phenomenon, these findings, such trends	A pronoun without an antecedent noun reveals a missing or odd link
Contrast & Elaboration Pivots	Connectors: however, conversely, furthermore, similarly	A sentence shifting tone without a contrast marker belongs outside the paragraph
General vs Specific Scope	Broad philosophical premise vs specific empirical case study	A sentence deviating from the paragraph's specific scope level is the odd one

STRATEGIC PRINCIPLE: Pro Tip: Since Odd Sentence Out is TITA (no negative marking), never leave it unattempted!

3. 30-Day Verbal Ability Conditioning Sprint

Daily 20-minute verbal drills to achieve 85%+ accuracy on non-RC questions.

- Days 1-10: Para Summary Drills. Solve 5 summaries daily; write your own 1-sentence synopsis before looking at choices.
- Days 11-20: Odd Sentence Out (OSO). Solve 5 OSO questions daily; always write out the 4-sentence coherent sequence.
- Days 21-30: Mixed Non-RC Sprints. Complete 8-question mixed verbal sections (3 Summaries, 2 OSO, 3 Para Jumbles) in 14 minutes.
